UPDATE ON CEMENT MILL COMMISSIONING AT PACIFIC CEMENT PTE LIMITED

Fijian Holdings Limited (FHL) hereby issue an update on behalf of its subsidiary, Pacific Cement Pte Limited (PCL), following the earlier market announcement issued on 21 March 2025 regarding the temporary suspension of cement production due to a critical mill breakdown.

The damaged mill component has been installed, and commissioning has commenced; however, we are currently experiencing delays due to technical issues.

PCL's Engineering team, along with specialist contractors, are currently working to rectify these issues.

We wish to assure our stakeholders that we are making every effort to resolve these issues as quickly and safely as possible. Regular updates will be provided as the commissioning progresses.

We thank our valued customers and partners for their continued support and understanding during this period.
